SPECIAL INSTRUCTIONS

All specimens listed herein are guaranteed genuine and as represented. Grading is believed to be better than marked in most cases.

I have adopted an arrangement different than in most sale lists, which I trust will be appreciated by collectors generally. You can easily and quickly check the dates you are interested in and make bid accordingly. In most catalogues only rarer pieces are listed separately. Bid only on the pieces you actually want. It is my desire to give the little fellow a chance to get the dates he wishes, without buying a lot of coins he has no use for.

As soon as the sale is terminated as per date on catalogue bills will be sent for the items you have secured, and prompt remittances are expected. Specimens will then be sent by insured mail or if bulkly by express. Credit can be had, if arranged in the usual manner by giving business or bank references, which of course would have to be investigated.

Remittances may be made in the most convenient manner. Stamps will be accepted for small amounts under $2.00.

I will buy coins below your bids for you, if other offers permit. There is no charge for making bids, packing or shipping. It is easy to buy coins in this manner. Use the bid sheet and if you do not get any items, you are nothing out but a three cent stamp. After the sale priced catalogues will be supplied for $1.00 each.

If you wish to make bids on certain items and are not posted as to value, mail me a list of numbers immediately and I will mark the list prices on same. Then you can go ahead and put in your bids.

I shall start immediately on my next sale which will likely be in March. If you have any fine or rare material you wish to dispose of, I shall be glad to include it in that sale. I have a new scheme that will protect the seller, in that, you may mark every envelope sent me, with a STOP PRICE. That means, I get at least that price or more, OR NO SALE. My terms for selling will be sent on request.

I find many collectors hesitate to send their good coins to be auctioned, feeling they will lose heavily. They can hardly be blamed the way auctions are now conducted. Make your stop prices reasonable and I believe sales will be effected. I reserve the right to return shipments, or any part of same, if I feel the stop prices are altogether too high. It would be a waste of time and money to list such material and make no sales.

The buyer must also be satisfied. I protect him in this way. If you buy a coin you are not satisfied with, or feel you have paid too much, I will list it for you in my next sale gratis. There is always a difference of opinion in such matters and even experts cannot always agree. So I say, the buyer must be satisfied to the greatest possible extent.
